

REMARKS

In a telephone call on March 16, 2005 between the Examiner Terry Alan McKelvey and Sebastian Martinek (Reg. No. 52,413) on behalf of Applicants' representative Laura A. Coruzzi (Reg. No. 30,742), Sebastian Martinek explained that the submission of September 23, 2004 included copies of amendments that had previously been submitted before July 30, 2003 under the old amendment practice and that mark-ups of the amended paragraphs had been submitted as Exhibits to the submissions. Examiner McKelvey responded that it would be best if Applicants would incorporate all previous amendments in one single new amendment that would comply with the revised amendment practice.

Since the amendments to the specification are extensive, *i.e.*, sequence identifier numbers are introduced throughout the specification and the correct priority information has been added, Applicants submit herewith a Substitute Specification as a clean version and a marked-up version in accordance with 37 C.F.R. § 1.125.

Entry of the present submission in the file history of the subject application is respectfully requested.

No fee is believed to be due. Should any fee be due, however, please charge any such fee to Jones Day Deposit Account No. 50-3013.

Date: April 6, 2005

Respectfully submitted,
